Michael Wertz is a Vice President/Senior Analyst for the Eastern Local Governments Ratings Team. He is the lead local government analyst for Connecticut and Mississippi and was previously a lead analyst for local governments in California. As a senior member of Moody's ESG task force, Michael has published commentary on Moody's approach to incorporating exposure to climate change in local government ratings and on the impact of drought on credit

quality. He has also published research about community colleges and city pension reform.

Prior to joining Moody's, Michael was a public sector consultant focusing on federal and local government projects. Michael holds an MPA from the Maxwell School of Citizenship and Public Affairs at Syracuse University and a BA in Political Science from the University of the Incarnate Word in San Antonio.
